

# Accelerated Cloud Migration to Google Cloud - Powered by Rackspace Technology

Jumpstart your Google Cloud journey with our exclusive workload migration offer, delivered by migration specialists from Rackspace and Google Cloud

## What is Accelerated Cloud Migration?

This unique and exclusive offer leverages the combined expertise of Google Cloud and Rackspace to ensure a frictionless transition of your workloads. What sets this offer apart is the integration of Google's Professional Services, which brings to the table a wealth of cloud migration knowledge and best practices. With Google's experts actively engaged in the delivery process, you gain access to tailored strategies, meticulous planning, and real-time optimization, resulting in minimized risks, accelerated migration timelines, and optimized resource utilization.

### Is this offering right for you?

- Do you have legacy applications that you would like to migrate?
- Are you committed to running applications on VMs in the cloud?
- Do you want to modernize, but don't have time to invest in the modernization of workloads prior to migration?
- Are you looking to minimize operational change for workloads migrating to the cloud?
- Do you need to exit your datacenter quickly or have a CapEx refresh event on the near horizon?

### What is the delivery model?

#### Discovery

Provide technical expertise and guidance on migration discovery, **leveraging Google approved automated tools** as well as application team's insights to conclude on a migration design - complexity analysis of each applicable application stack, migration recommendation, proposed migration waves, and a first-mover assessment.

#### Planning and Landing Zones Setup

Assist with managing and planning of the migration execution phase, including migration waves and sprint planning, deployment of Migrate for Compute Engine and on-going project communication and governance recommendations. **Our proven Landing Zone is designed and built directly by Google Cloud engineers.**

#### Migration

Elevate your migration experience with **a partnership that promises accelerated migration speed and minimal risk**, providing a seamless transition to the cloud with Google Cloud and Rackspace Professional Services by your side.

## Key items we need from you

- A fully engaged sponsor and team
- Necessary system access completed before kickoff
- Networking and connectivity established before kickoff
- Pilot Migration Applications selected before kickoff

### Key deliverables

- Landing Zone Handover Report
- Migration Runbooks
- Current State Assessments
- Migration Leading Practices Report

### Google & Rackspace team:

- Migration Lead / Architect
- Project Lead
- Landing Zone Team
- Migration Team

### Your team includes

- Executive Sponsor
- Enterprise Architect
- Project Manager
- Infrastructure Lead & Team
- Operations Lead & Team
- Application Lead & Team

### Key engagement details

- Fixed priced offer (200 - 3000 VMs)
- Delivery time est: 16 weeks (200 VMs)

Complementary solutions

### Other Google Cloud and Rackspace solutions that complement your cloud journey

#### Follow-up offerings:

- Data Center Migration
- Application Modernization
- Data & Analytics
- Modern Operations
- Elastic Engineering
- Generative AI

\*depending on complexity, industry, and your team, pricing and time is non binding and for discussion purposes only
